

before Net

after Net

So, you don't own a computer and you've been wondering about all this talk of "getting wired." Just sit down at an **SF NET** terminal, plug into cyberspace, and join the latest and possibly the safest 20th century addiction. There are more than 20 million friendly users around the world who use computers to satisfy this renewed interest in people.

SF NET is just one more interesting twist in the ever changing world of computer networking. By placing coin operated terminals in public places **SF NET** allows those who don't own computers the opportunity to plug in and be heard. Computers have become an important communications device allowing inexpensive access to people from all over the world. As the data highway continues to spread over the globe **SF NET** will insure access to hundreds of people who don't own computers. Please join us by sitting down and connecting with the users of **SF NET**.
